

5 Awesome Windows 8 Shortcuts

Win+C

Opens the "Charms" menu. This menu allows you to quickly access Windows settings and features such as search, shutdown, and restart.

Win+D

Brings you to the desktop. Pressing the key combination again will bring you back to the original active window.

Win+E

Opens Windows Explorer. This quickly lets you browse the contents of your device.

Win+Q

Search through apps installed on your computer.

Win+F

Opens Search charm. It's a quick way to search through all your apps. Alternatively, you can just type away in the Start screen. The app search console appears immediately as you start typing in the Start screen.
