COMPOSE RECIPE

Spring 2006

COMPOSE RECIPE

Ingredients:

Brown Stuff	Air
Green Stuff	Water

Directions:

1. **Start with brown stuff** (leaves or pine needles) six inches thick.
2. **Add green stuff** a layer of grass clippings two inches thick.
 - mix the layers up a little
 - as you make the layers
3. **One shovelful of soil or compose** to add micro-organisms.
4. Water each layer to wet the ingredients.
5. Repeat each of the layers until the bin is full.
