Date Collected: 09/13/2012

L.O.C: Leslie Henry garden

Collector: Thomas Cottier

Common Lakota Uses: Prayer Ties, offerings, medicine, smudging

Plant Score = 10 points

Comment [WU1]: According to Roger's Lakota name is Canli' for *Nicotiana quadrivalvis* – cultivated by all tribes. Today's commercial tobacco is *N. tabacum*. This was an ornamental.

Comment [WU2]: Older man's plant that was cultivated for the elder men of a tribe. Young men and women were thought not to be wise enough to handle this plant.
